ANSON COUNTY TAX OFFICE JOB POSTING

LEAD TAX TECHNICIAN

Grade 63 Hiring Rate \$26,815

Anson County Tax Department is seeking a qualified individual to serve as Lead Tax Technician. This position organizes and oversees the work of a small staff responsible for assisting the public in listing taxes, appraising business personal property, automobiles, boats, mobile homes, farm equipment, and the mailing of tax bills, etc. and is directly responsible for the tax exemption and deferral programs

Description of Work Duties include, but are not limited to, ensuring accurate and timely listing of taxes, maintaining accurate tax records and ensuring accurate and equitable valuations of property, including personal, business personal and vehicles. This position is directly responsible for determining eligibility for senior and disabled exemptions, and agricultural, horticultural, forestland and historical deferral programs. Work involves calculating deferrals and calculating taxes owed on property removed from deferral programs. This position does data entry for tax records, performs necessary procedures for interfacing our computer system for billing and updating our CAMA system. This position also spends considerable time acting as review officer for maps and plats prior to recording.

Work involves extensive public contact and requires the individual to interpret tax laws, regulations, and assessment procedures, and to handle and resolve a variety of sensitive issues and complaints. Independent judgement and initiative are required as well as considerable tact, courtesy and diplomacy must be exercised when dealing with the public on sensitive and controversial issues.

Work is performed under the supervision of the Tax Assessor and is reviewed through conferences, records and reports and feedback from the public.

Minimum Education and Experience Graduate from an accredited college or university with an Associate's degree in business, accounting, or related field. Considerable experience in listing or assessing taxes or related experience, or an equivalent combination of education and experience.

Applications will be accepted through Wednesday, February 25, 2015

An Anson County Government Application must be completed and sent to:

Larry Newton
Anson County Tax Assessor
 101 South Greene Street, Suite 105
 Wadesboro, NC 28170

Pre-employment drug/alcohol testing and criminal background check required.

Anson County does not discriminate on the basis of race, color, sex, national origin, religion, age or disability in employment or provision of service.

MEDIA ADVISORY

Regional Water Quality Preventative Maintenance Program

WHAT: In a continuing effort to distribute high quality potable water, the above listed water utilities will conduct a routine Water Quality Preventative Maintenance Program. This program will involve temporarily switching water disinfectants from the present chloramines to free chlorine in order to optimize water quality within the distribution systems.

WHEN: Monday, February 23, 2015 through Sunday, March 22, 2015

WHERE: *Union County:* Public water systems in Weddington, Wesley Chapel, Waxhaw, Marvin, Indian Trail, Stallings, Wingate, Marshville, Fairview, Unionville, and unincorporated areas of Union County served by Union County Public Works.

Anson County: Public water systems in Wadesboro, Morven, Lilesville, Peachland, Polkton, Marshville, & Ansonville, and unincorporated areas of Anson County, as well as portions of Chesterfield County, SC, served by Anson County Public Works.

Lancaster County: Public water systems in the cities of Lancaster, Health Springs, and Kershaw, and unincorporated areas of Lancaster County served by LCWSD.

COMMENTS: During the Preventative Maintenance Program, some water customers may notice temporary taste, color or odor differences in their water. This is a normal component of the process and customers should be reassured that water quality is not affected and remains safe for drinking, bathing, cooking and other general uses. Most customers will not notice any change.

There are three groups of water users that should take special precautions during the Preventative Maintenance Program: 1) hospitals & kidney dialysis providers/patients, 2) fish, pond, pool and aquarium owners/ operators, and 3) some business that use water in their production process. Those who fall in to any of the above categories are strongly encouraged to seek professional advice concerning the removal methods for chlorine and chloramines from their water supply.

This maintenance program is being performed at this time of year when water usage is low, as not to stress the water distribution system during times of higher demands, such as summer. You may see crews performing flushing operations at hydrants to insure chlorinated water is dispersed through the entire water system.

Once the water distribution systems have been completely and adequately treated and flushed, the disinfection process will be switched back to chloramines and re-introduced into the water distribution systems.

For further information or with specific questions, residents may contact their local water provider. Media inquiries may be directed to the contacts listed above.

These Counties work in cooperation with one another to provide potable drinking water to portions of the 4-county region including Union and Anson counties in North Carolina and Lancaster and Chesterfield counties in South Carolina, serving a population of approximately 207,800 residents.
