Hospice of Union County Recognized as Official Certified Wildlife Habitat Site

The National Wildlife Federation (NWF) has recognized the Hospice of Union County campus as an official Certified Wildlife Habitat site. The campus attracts a variety of birds and butterflies by providing a wildlife-friendly environment. Debbie Foster, a leader with H.A.W.K. (Habitat and Wildlife Keepers) a local chapter of the North Carolina Wildlife Federation, led the effort to get Hospice certified. In order to become certified, a property must provide the four basic elements that all wildlife need: food, water, cover and places to raise young. In addition to providing for wildlife, certified habitats such as Hospice conserve our natural resources by reducing or eliminating the need for fertilizers, pesticides, and/or irrigation water, which ultimately protects the air, soil and water throughout our community. If anyone would like to know more about creating a certified wildlife habitat go to www.habitatsteward.org or contact Debbie Foster at fostdebbie@gmail.com.

Mr. Preslar Is Pain Free and Enjoying Life!

My name is Jimmy Preslar and I want to share my story with you.

I had surgery several years ago and was still having pain in my back and neck. I had been under chiropractic care in the past so I called Wadesboro Chiropractic and made an appointment to see Dr. Dial. I started treatments back in January of this year at which time I was in pain and could not do my normal activities such as fishing, hunting and target shooting. After my first visit I could tell a difference in the way I felt. Today my pain is gone, and I am back to my normal activities and enjoying life. I have better mobility, and I am back on the target range! I would advise anybody having pain to see Dr. Dial at Wadesboro Chiropractic. Don't suffer with your neck and back...see Dr. Dial.
