

Pond Weed ID Class Offered

The Anson Cooperative Extension Service will host a pond weed identification class on Monday, August 4, between 6 and 7:30 p.m. This class will offer 1.5 hours of pesticide credits under the categories A, N, D, and X.

This time of year, ponds may be covered or partially covered by one or more aquatic weeds that interfere with fishing, irrigation, and aesthetics. Having assisted Anson County pond owners with aquatic weed management problems for over 8 years, horticulture Agent, Aimee Colf, says, "The most common mistakes people make in managing aquatic weeds are incorrect plant ID and failure to implement long-term management strategies."

This class will show participants pond weeds collected from around Anson County and cover plant identification, long term management using chemical, physical, mechanical, and biological control measures. It will also cover herbicide application tips and prevention of fish kills related to weed management. Participants are welcome to bring in pond weeds for ID to this workshop.

The class is \$15 (payable to Anson Advisory Council) and is limited to 20 people. It is open to the public. Please preregister at the Anson Cooperative Extension office at 501 McLaurin Street in Wadesboro to secure your seat.

Anson County Partnership for Children accepting applications for NC Pre-K, a kindergarten readiness initiative that is proven to help four year olds gain basic skills needed for success in elementary school. Children who are four years of age before August 31, 2014 are eligible to apply for the program, which is free to qualifying families.

"Availability in this program is limited," said Elaine Scarborough, Anson County Partnership for Children Executive Director. "If parents are interested in enrolling their children in the NC Pre-K program, I strongly encourage them to act quickly."

A high priority is placed on serving children who are "at-risk." A child is considered to be "at-risk" if the child's family is at or below 75% of the state median income level or if a disability has been identified. Enrollment is also open to students who have limited English proficiency, developmental differences, chronic health conditions, or a parent who is active service personnel.

NC Pre-K classes operate on a regular school calendar and are designed to address emotional and social development, physical health, language development, and cognitive functioning. Teachers are highly qualified and hold a minimum of a BA/BS degree as well as specific early childhood credentials. Through incorporation of indoor and outdoor learning environments, students participate in active learning experiences to foster a lifetime love of education.
