**PPES Holds Career Day**

Peachland-Polkton Elementary School was delighted to have parents and community members attend Career Day on Friday, February 27th. Career awareness begins in elementary school as students learn about different careers and develop a positive attitude toward learning and working. Students also begin to consider how school success and academic achievement enhance future career and vocational opportunities. Presenters talked to students about the level of education required for their job, where they received training, their job responsibilities, and which school subjects are important in their line of work. Student got to learn from many community nurses, police officers, farmers, a professional land surveyor, a horse farrier, our fire marshal, a football coach, a vet, a pharmacist, our superintendent and our sheriff!

PPES School Counselor Sadie Shaver said, "Special thanks to everyone who took time out of their busy work schedules to special to students! These students are the future of our community, we are doing our best to ensure that they are prepared."

Sheriff Landric Reid speaks to an enthusiastic group of students at PPES.

It's looking like PPES Medical Center! Nurses and a veterinarian shared their working experiences with students during the recent Career Day

**Aware? Or Beware!**

This is a release from Mary Lynn Railton at the Anson County Health Department: We are created male and female, sexual creations, created by the act of sexual intercourse. Sexual health and behavior is part of every person's life.

Our behavioral choices are based upon our knowledge, our environment, our belief system and our culture. Risky sexual behavior results in unplanned pregnancy and the spread of sexually transmitted infections (STI's), including HIV. And, now we know that the STI called the Human Papilloma Virus causes cancers that can be debilitating and fatal years after the initial infection.

The Anson County Health Department's Family Planning Program is dedicated to providing education and resources for the promotion of healthy attitudes and behaviors. "Our community's health is our priority" is the mission statement that we live daily.

Call today and make a Family Planning appointment for a physical examination and counseling, (704) 694-5188. Reduce your risks by being informed. Live long and be healthy.
