- Mar 12 Wednesday - Alfred Hitchcock Day

The Month of March

March is named for the Roman god of war, Mars. However, we think of it as the beginning of spring, as March brings the vernal equinox, the Full Worm Moon, and the return of Daylight-Saving Time!

March 2025 Calendar

- March 4 is Mardi Gras (aka "Fat Tuesday" or Shrove Tuesday), which is the final feasting day before the Christian tradition of Lent begins on the following day, Ash Wednesday.
- March 5 is Ash Wednesday, which marks the start of Lent.
- March 8 is International Women's Day, which is a day that not only celebrates the achievements of women, and the progress made toward women's rights but also brings attention to ongoing struggles for equality around the world.
- March 9 is the start of Daylight Saving Time, which begins at 2:00 A.M. that day. If your area observes it, don't forget to "spring forward" and set the clocks one hour ahead, or you may find yourself an hour late to everything!
- March 14, The Full Worm Moon Look for it on the evening of Thursday, March 13, as the Moon rises above the horizon! A total lunar eclipse - is also taking place on March 14, and is called a Blood Moon! During a lunar eclipse, the Earth passes between the Sun and the Moon, blocking the Sun's rays. The Moon will be 100% obscured during this eclipse. However, the Moon isn't completely dark. What we see from Earth is the Moon slowly darkening and changing color over a few hours from bright white to an orange red.
- March 15 is the Ides of March! Legend surrounds this ill-fated day. Beware the Ides of March!
- March 17 is St. Patrick's Day. According to folklore, folks wear a shamrock on St. Patrick's Day because the saint used its three leaves to explain the Trinity.
- March 20 brings about the March equinox - also called the vernal or spring equinox in the Northern Hemisphere - marking the beginning of spring

March's birth flower is the daffodil or jonquil. The daffodil signifies regard or unrequited love. The jonquil means "I desire a return of affection."

March's birthstone is the aquamarine. This gem is a type of beryl; its color can be pale to dark blue, greenish-blue, or blue green; deep, intense blue versions are more valuable.
