

Peachland-Polkton Elementary School Participates in Jump Rope for Heart

Jump Rope for Heart isn't anything new for Peachland-Polkton Elementary School. What was new this year was how much the students excelled at fundraising for the American Heart Association. Each year for the past five years PPES has participated in Jump Rope for Heart. It's a program that promotes physical education and provides students with

knowledge of heart disease and stroke while raising funds for cardiovascular disease research, stroke re-

search and health education.

During the month of February the school's Physical Education class taught by MiRandi Chewning and Shelly Vetter focused on jump rope skills. These skills included short rope, long rope and Chinese jump rope.

Shelly Vetter said, "This year PPES's goal was to raise \$11,000 total with a \$3,000 online goal. We are proud to say everyone got on board and met our goal by raising \$11,000.75 total, with an online total of \$3,029. That is \$500 more than last year!"

To celebrate the students' success, kindergarten through second grade participated in a "Jump the Gym" event that consisted of multiple jump rope stations. Students in grades 3-6 were given the opportunity to create a team of five to participate in a Kings and Queens tournament.

'Thank You for everyone's support," Vetter concluded. "This program means a lot to us, and we are so proud of our students who took the time and showed that they care about others living with heart disease."
