The Month of June

Ah, happy day, refuse to go! Hang in the heavens forever so! Forever in midafternoon, Ah, happy day of happy June!

— Harriet Elizabeth Prescott Spofford, American writer (1835–1921)

Juno is the ancient Roman goddess of marriage and childbirth. And the month of June is still a popular month for weddings today! As a natural extension of marriage, Juno was also the goddess of childbirth. Another interpretation of the origins of "June" says that the name came from the Latin juvenis, "young people," who were celebrated at that time.

June Calendar

- June 5 is World Environment Day meant to raise environmental awareness across the globe.
- June 11 the full Strawberry Moon, occurs on Wednesday, June 11. It reaches peak illumination at 11:41 P.M. (EDT) that evening.
- June 14 is Flag Day (U.S.). Be sure to raise the flag!
- June 15 is Father's Day this year. Be sure to spend time with yours!
- June 19 is Juneteenth. On this day in 1865, Union General Gordon Granger read the Emancipation Proclamation aloud in Galveston, Texas, effectively liberating enslaved people in the state, which had thus far been beyond control of the Union Army.
- June 20 is the summer solstice, which heralds the start of summer in the Northern Hemisphere. It's the day with the most hours of daylight.
- June 24 brings Midsummer Day. Traditionally, this was the midpoint of the growing season, halfway between planting and harvesting. It is celebrated in many cultures on the night of June 23, as Midsummer Eve!
- **June's birth flowers** are the rose and the honeysuckle. A rose, in general, indicates love or desire. The honeysuckle denotes the bonds of love, or generous and devoted affection.
- **June's birthstone** is generally considered to be the Pearl, as well as Alexandrite and Moonstone. Pearls are associated with purity, honesty, and calmness.
