Look Before You Lock Your Car

Prevent child and pet hot car deaths

The number of child hot car deaths for 2021 was 23. So far in 2022, three deaths have been reported. On average, 38 children under the age of 15 die each year from heatstroke after being left in a vehicle. Here are some steps to prevent heatstroke in hot cars:

- 1) Never leave your child alone in the car, not even during a quick trip to the store.
- 2) Create reminders. Place your phone, briefcase, or purse in the backseat when traveling with a child.
- 3) Create reminders. Place your phone, briefcase, or purse in the backseat when traveling with a child.
- 4) Take action. If you see a child alone in a car, call 911.

Don't Forget Your Sunglasses!

UV rays can increase the risk of cataracts, macular degeneration and other eye diseases.
50% of UV damage to eyes is done before a person is 18 years old, so kids need sunglasses too!
Sunglass frames with a close fitting wrap around style provide the best UV protection.
Polarized lenses reduce reflected glare from surrounding water.
