**Look Before You Lock Your Car**

**Prevent child and pet hot car deaths**

On average, 38 children under the age of 15 die each year from heatstroke after being left in a vehicle. Here are some steps to prevent heatstroke in hot cars:

- 1) Never leave your child alone in the car, not even during a quick trip to the store.
- 2) Keep car doors and trunks locked and keep key fobs out of reach, so kids can't climb into cars on their own.
- 3) Create reminders. Place your phone, briefcase, or purse in the backseat when traveling with a child.
- 4) Take action. If you see a child alone in a car, call 911.
