The Month of August

August was named to honor the first Roman emperor (and grandnephew of Julius Caesar), Augustus Caesar (63 B.C.-A.D. 14)

August Dates to Remember

- August 11 marks the end of the Dog Days of Summer, which began on July 3.
- August has two full Moons this year! The full Sturgeon Moon reached its peak on Tuesday, August 1, 2023, and then we have a full Blue Moon on Wednesday, August 30, 2023 - and it will be the closest supermoon of the year!

The term Blue Moon is most commonly used when we have two full Moons in a single month.

- August 19 brings National Aviation Day, chosen for the birthday of Orville Wright who piloted the first recorded flight of a powered heavier-than-air machine in 1903.

- August 26 is Women's Equality Day, which celebrates the 1920 ratification of the Nineteenth Amendment and, with it, women's right to vote in the United States

- August's birth flowers are the gladiolus and the poppy. The gladiolus symbolizes strength of character, sincerity, and generosity.
- August's primary birthstone is peridot, which is said to symbolize strength and healing power, protecting its wearer from nightmares and evil, ensuring harmony and happiness. Babies born in August are lucky to be guarded by peridot's good fortune.
