

Field Day at Ansonville Elementary School!

AES students had a blast on Field Day! There were various stations set up around our campus for all of our students to enjoy. From potato sack racing, tug-o-war and outdoor bowling to jump the creek, our students had a great time! When it got too hot students were able to cool off under the shower provided by Ansonville Fire Department!

Ansonville Elementary School Students Excel in PBIS Events

Students participated in a PBIS scavenger hunt that showcased their teamwork and their ability to think on the move. When the scavenger hunt was finished the teams spelled our PBIS acronym P.O.W.E.R. (Preparation, Organization, Work Hard, Engagement, Responsibility).

Our students also got the chance to have an outdoor picnic style lunch during our last PBIS event.

We are very proud of our students and how they were able to show P.O.W.E.R. last year!

WADESBORO ROTARY PLANETARIUM AND SCIENCE CENTER

where Curiosity is the Curriculum

A Sweet Farewell

Mrs. Wendy Efird and Mrs. Lori Ingram,

As the end of August approaches, we find ourselves reflecting on the incredible journey we've had under your guidance and leadership at the Rotary Planetarium and Science Center. Mrs. Efird, your nearly 15 years as the director have been a beacon of inspiration, instrumental in transforming this center from an idea to a thriving hub of scientific exploration. Mrs. Ingram, your unwavering support and collaboration have been indispensable in creating an exciting hands-on academic program that has left an indelible mark on countless young minds.

Mrs. Efird, you have been the heart and soul of this establishment, and your passion for education has guided us to reach new heights. The Rotary Club of Wadesboro's resolution to provide financing scholarships for children to attend the Summer of STEM Camps is a testament to the profound impact you've made on the community.

Mrs. Ingram, we extend our heartfelt gratitude for your significant contributions to improving the Planetarium and Science Center. Your commitment and dedication have played an invaluable role in shaping the transformative experiences we offer to all of our visitors! The Rotary Club of Wadesboro recognizing you as a Paul Harris Fellow is a resounding confirmation to your efforts as well.

As you both transition into well-deserved retirements, we want to express our deep appreciation for the unwavering commitment, tireless efforts, and boundless enthusiasm you have brought to the center. Your legacies will continue to inspire and shape the future of the Wadesboro Rotary Planetarium and Science Center for generations to come.

Mrs. Katie Carpenter is thrilled and honored to serve as your successor and the new Director of the Wadesboro Rotary Planetarium and Science Center. Mrs. Carpenter's passion for lighting the spark of learning through curiosity and dedication to the kids of Anson County will without a doubt continue the extraordinary work that Mrs. Efird and Mrs. Ingram have laid the foundation for.

Thank you, Mrs. Wendy Efird and Mrs. Lori Ingram, for your extraordinary leadership, unwavering commitment, and lasting impact. Your contributions to Growing Greatness will forever be cherished and remembered.

THANK YOU!
