

Students Having Fun and Learning While Attending JAMM During Summer Session at WPS!

Mrs. Stinson and Ms. Ponds used an Outer Space Adventure theme for JAMM at Wadesboro Primary School this summer and transformed the entire space into a fun-filled galaxy. They incorporated outer space into every movement, music, and art activity that took place.

Students were participating in an ELA relay in the photo at right.

PTA and Volunteers Improve WPS Playground

This summer, the addition of mulch improved the Wadesboro Primary School playground. Thank you to the PTA and volunteers for your support in improving the area!

Book Vending Machine at PPES!

Peachland-Polkton Elementary School has a brand new, amazing incentive for students. A book vending machine is now located in the Media Center!

Book vending machines are what they sound like: a vending machine, but instead of dispensing snacks and drinks, it dispenses books! The goal is to promote reading, good behavior and always working hard to do your best.

The new machine is loaded with all genres and types of books. Students will work hard each day for chances to earn tokens needed to dispense the books. They will select a book, free of charge, and can take it home and enjoy it forever.

With the addition of the book vending machine to the PBIS (Positive Behavioral Interventions and Supports) incentive program, students will be able to fuel their imagination, boost their literacy skills and become confident readers.

Active Shooter / Rapid Response Training at PPES

On Wednesday, July 20 South Piedmont Community College hosted an Active Shooter/Rapid Response training at Peachland-Polkton Elementary School. The Anson County Sheriff's Office as well as the Polkton, Wadesboro, Marshville and Monroe Police Departments collaborated to conduct this training.

Officers and emergency personnel undergo active shooting training regularly. The goal is to make the training as realistic as possible. Ongoing training ensures that all officers have the same knowledge and tactics of how to handle active shooter events.
