Anson Community Hospital Hospitalist Program

"Since 1913...Taking Care of the Neighborhood"

Did you know...
 that Anson Community Hospital is now offering a Hospitalist service that allows a hospital based physician to care for you while you are a patient in the hospital?

What are the benefits of a Hospitalist program to you?
 Hospitalists keep a close eye on you. They work in the hospital and are able to see you more than once a day. They assist you through a smooth and speedy recovery process by following up on tests and adjusting your treatment regimen throughout the day. Hospitalists answer your family's questions. Since Hospitalists are in the hospital during the day, they are able to spend more time talking to you and your family about your care.

What are the benefits of a Hospitalist program to your primary care doctor?
 Hospitalists help your primary care doctor to be more available to you. Because Hospitalists are in the hospital during the day, your doctor can be with you in the office with fewer delays and interruptions. Your primary care doctor will be able to devote more time to keeping you and your family healthy.
