Enjoy Music by Carson Hill

8) Sherrie Knotts Lyrical Poet w/Music

Carson Hill, a thirteen year singer/songwriter from Ansonville, North Carolina, is an aspiring country music artist. She is known for her ability to write songs that tell stories that capture the listener. She began singing and playing the piano in church at a very young age. At the age of eleven she taught herself to play the guitar and began performing at local events. After her very first show she knew that the stage was where she was meant to be.

accomplished country music songwriters in Nashville.

Although she is only thirteen, Carson has already reached many of her goals. From singing publicly at the age of two, learning to play the piano at the age of six, teaching herself to play guitar and writing her own songs at the age of eleven, and learning to play the mandolin presently, Carson has already proven her heart for music and has won over many fans young and old. She is determined to have a career in music one day.

One of Carson's favorite sayings is "Music is my life," and anyone who meets her knows immediately that music is and will always be a big part of her life.

Carson will be singing on the BB&T Stage at People Fest at 10:30 a.m.

PEOPLE FEST 2011 • Supplement to The Express • October 5, 2011 • Page 1 2nd Annual Wadesboro Tortoise & Hair Race

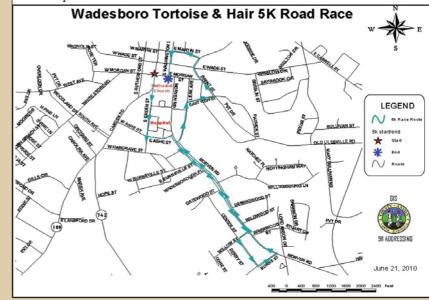

On Saturday, October 8, the day of People Fest, Wadesboro will host the Tortoise and Hair 5K Run/Walk and 1 Mile Run Fun. The Fun Run starts at 7:30 a.m. and the 5K starts at 8 a.m. on the lawn of the First United Methodist Church at 118 East Morgan Street. The event has two purposes: 1) to bring people into

uptown Wadesboro, and 2) to raise awareness for Alopecia areata. The race registration fee for the 5K is \$20, however if you wait until the

day of the race the registration fee increases to \$30. The Fun Run is for kids, and its registration fee is \$10. To register for the race, you can pick up a race brochure at H.W. Little Hardware in uptown Wadesboro, Vac and Dash in Downtown Albemarle, register online at www.active.com, or at uptownwadesboro.com.

Alopecia areata is a common autoimmune skin disease resulting in the loss of hair on the scalp and elsewhere on the body. It usually starts with one or more small, round, smooth patches on the scalp and can progress to total scalp hair loss (alopecia totalis) or complete body hair loss (alopecia universalis).

Alopecia areata affects approximately two percent of the population overall, including more than 4.7 million people in the United States alone. This common skin disease is highly unpredictable and cyclical. Hair can grow back in or fall out again at any time, and the disease course is different for each person.
